What We Did

We reviewed resources available and discussed how and where to use them in our different grade levels, to build consistency in how our program is delivered.

What We Learned

We have a better understanding of what resources we have each been using, and we found some new resources to better align with the DELF.

How We Shared Our Learning With Others

We shared with each other and in planning for our students going forward. The project was also discussed at an Instructional Lead Teacher meeting as an example of sharing and learning within a department.

Any Next Steps We Have To Continue Our Learning

We will continue to share and discuss next year, maybe with teachers in other schools as well.
